We are suitable for persons or companies wishing to increase the profile, product of their web presence, by using the latest Brand & Marketing Strategy, MENU Pos, RPA, Crossmedia & Newmedia techniques and tools.

The Delta Media Online Platform prides itself on allowing customers to enjoy the online news experience without having to worry in the slightest about fakenews, security and safety concerns.

Delta Media Online Strategy

The Delta Media Brand Strategy benefits from a online, luxury, real estate, fashion, finance, music, media, exchange, sport, news, cryptocurrency, leisure, crowdfunding, entertainment and health information platform combining traditional marketing style, MENU POS, RPA, SAA, SEO technology and a unique web structure.

Delta Media controls an organized online platforms, structure and systems to launch, brand, watch, inform, monitor and promote all the Delta Media corporate products and concepts designed by Delta Intellect on the Internet.

The Delta Media Online Platform is powered by Delta Media wagering engine and offers odds on a good variety of digital items. The web sites are very easy to use and quite intuitive, which mixed with a very well designed and clean site makes wagering a breeze.

DELTA

INTRODUCTION

THE DELTA MEDIA TECHNOLOGY

Technology investments on the rise.

One way that most businesses responded to improving sales last year was to investing in Internet technology. The perceived importance of internet business solutions such as websites, MENU Pos, RPA, SEO, Analytics, Tracking, Viral Video, Traffic, Research, Scientist, Hosting, AMP, Online Marketing and Social Media grew in the past years.

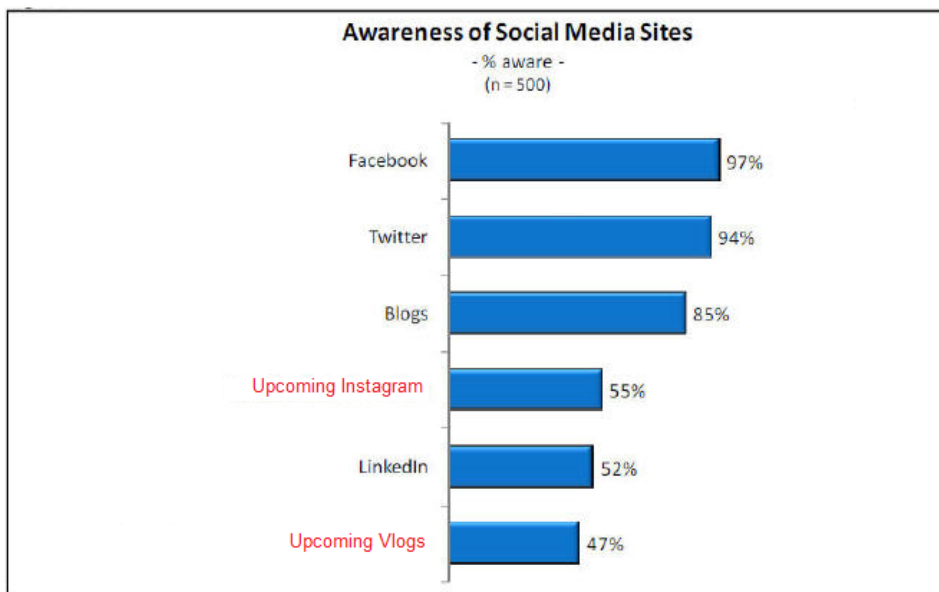

Over a quarter (27 percent) of International businesses have a Search Engine Optimization (SEO) plan, up from 19 percent three year ago. The only internet business solution in the survey that dropped is the purchase of online advertising in directories, a category that may be affected by the ability to use SEO or RPA and social media to find customers without spending. However, many businesses plan to add online directory ads in the future.

The role of having an online presence in any business has changed over time. The online channel is more important than a year ago as a way of generating leads for new customers, playing a primary role in this activity for 30 percent of businesses and a secondary role for another 16 percent.

While websites are critical for small businesses, 55 percent update their sites less frequently than once a month and 26 percent update them no more than once a year.

There is almost universal awareness among global business owners of Facebook, Youtube, Instagram, Ebay, Google, Bing and Twitter, while half are aware of LinkedIn. The most commonly used social media sites are Facebook (used by 27 percent of all businesses) and LinkedIn (18 percent).

The growth in social media is not cutting into investments in company websites, and is actually contributing to their expansion; 62 percent of social media users feel their use of this medium has no effect on their web investments, while 27 percent believe it will result in greater spending (only 9 percent would spend less or forgo their website).

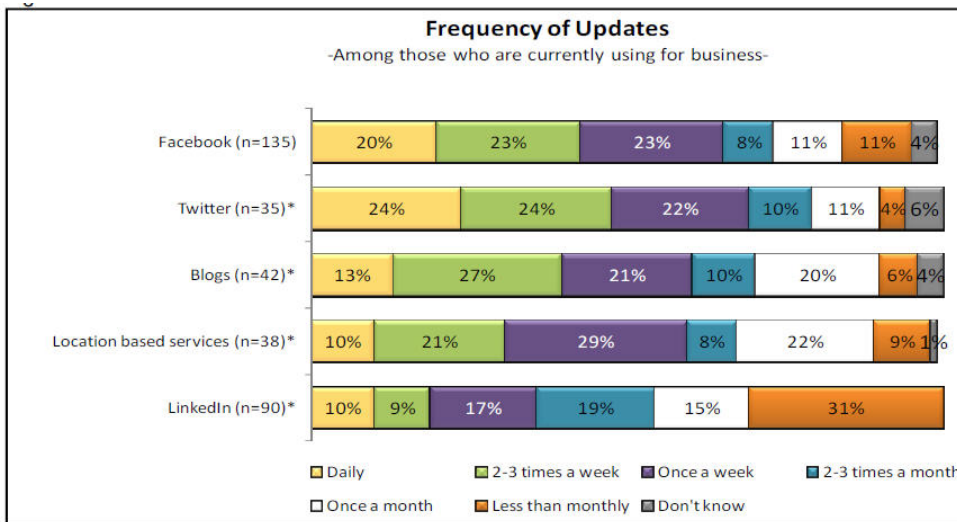

Mostly all businesses are still grappling with how to get the most out of social media, not surprising because so many users are “newbies.” Owners more often feel that their use of social media has fallen short of expectations (36 percent) than exceeded their expectations (9 percent), and this gap has increased over past survey waves.

The main accomplishments from using social media include: staying engaged with customers, developing higher awareness of the company, and identifying and attracting new customers. When asked about their experiences to date with this medium, 63 percent of owners feel it has helped make their customers more loyal, but 56 percent feel it has taken up more time than they expected.

Summing up the bottom-line, 25 percent of the business owners estimate that their investment in social media has made a profit while 15 percent estimate they have lost money; the remainder (46 percent) feel they broke even.

DELTA

THE FUTURE IS A ONLINE PLATFORM WITH ITS OWN MENU POS, RPA & SEO SYSTEM

While most businesses invested in technology in the second half of last year, hiring RPA, SEO & Analytics tools will become more important for 2015-2023 to meet the growing demands of an improved economy. Many businesses – 28 percent of the total – are planning on adding SEO & Analytics tools in 2020, while only 2 percent are considering reductions. The main reason for adding SEO & Analytics tools is to expand the business (73 percent), while 32 percent are trying to decrease the workload of existing marketing activities who are struggling to keep up with the turnaround. If businesses carry out their hiring SEO & Analytics tools plans, they will add a total of 3.8 million jobs to the global economy in 2017-2023.

Hiring RPA, SEO & Analytics tools may be a challenge, as less than 46 percent of global businesses believe they are successful in competing with other companies with good tracking on the Internet. According to owners, the types of RPA, SEO & Analytics systems who are best suited for major multinational environment rather than a small business environment embrace the RPA, Scientist, SEO & Analytics qualities.

The International business environment measures the importance and adoption of Internet business solutions (e.g., websites, social media, SEO, Analytics, platforms, etcetera) that help businesses market their brand, tracking and service their customers and run more efficiently and securely. Internet business solutions are becoming more important to all businesses, helping to attract new business in an improving economy.

Now, 42 percent of the business industry consider internet business solutions to be highly important, compared to only 33 percent in June-December 2019.

DELTA

Another area of great interest is the adoption of social media by creating a page or presence on a site like Facebook or LinkedIn. Adoption is now at a new high – 31 percent – up from 24 percent a year ago and 12 percent two years ago.

Based on current plans, almost half (46 percent) of all businesses will have a social media presence in two years. Another internet business solution that has grown substantially in the past year is the use of a Search Engine Optimization plan, which grew from 19 percent a year ago to 27 percent. Online payment capabilities and shared computer networks also experienced slight growth.

Which internet business solutions did not grow? Online advertising in industry/public directories actually dropped in the past year and is now used by 37 percent of small businesses, while general online ad placements remained flat at 21 percent.

One possible explanation may be that RPA, SEO and social media are providing alternative methods to direct traffic to small business websites, as opposed to more costly out of pocket advertising spending. This trend may change as small businesses improve their financial situation and are able to spend more.

What are the fastest growing technologies on the Internet? Based on intention, the fastest growing technology will be online advertising that places ads on various websites, RPA, SEO & Analytics and social media. The increase in general online advertising may be due to increased budgets, while RPA, SEO & Analytics and social media growth may be part of a long range trend.

Website adoption is starting to slow, but this is due to the fact that two-thirds of most businesses, news & entertainment sectors will have a viralvideo strategy, vlog, blog, Instagram account and social media site within 24 months.

DELTA

RUDY DEIGHTON

Rudy Deighton, creative, concept designer, visionair and a pioneer all the way.

Core-business: design corporate strategy, brand & marketing concepts, seo & analytics strategy, corporate communication, internet, network, social media & community platforms.

RESEARCH & DEVELOPMENT

DELTA MEDIA RESEARCH & DEVELOPMENT

The Research & Development department of the Delta Media and specialised partners have developed a complete new and unique Judi online information platform and RPA, SEO (search engine operation) concept which is flexible, safe and with a low Total Cost of Ownership.

In this document the strategy for realisation "The Judi Online Platform & Service Platform" is discussed. Realise and branding the name the Marketing Platform & Online Service Platform International will result in associating and tracking different kinds of people worldwide within the Internet, websites, social media, blogs, search engines and the current industry

Phase 1: Basic principles (April 2018 - July 2019)

- Assembling a core team and steering committee Judi Online
- Establish project and commissioning of the administrative support
- Final Research & Development phase The Judi Online Online Platform
- Realisation phase The Judi Online Online Platform
- Establish the necessary consultation (internal and external)
- Production & Global development phase Judi Online Online Platform
- Brand, Marketing, PR and communications Strategy
- Legal review, test and refine (existing) procedures

Phase 2: Short term (April 2020 - March 2022)

- Embedding in the line Judi Online organization
- Mutual coordination with all relevant Judi Online project partners
- Policy and Judi Online project development
- Judi Online coaching and assent
- Notification Judi Online procedure, working arrangements and enforcement

Phase 3: Medium term Judi Online realization phase

- Operational supervision and enforcement of rules Judi Online

The Judi Online Platform

Using The Judi Online Information Platform, with online marketing, the process of measuring the behavior of visitors to a web site or platform, is a very important aspect of our system. By tracking where visitors go and observing the actions they take when visiting a web site you can find ways to increase your profits.

The Importance Of Using The Judi Online Platform

In order to increase the amount of traffic the Judi Online site receives, most companies use Search Engine Optimization (SEO) to improve their search engine rankings and bring in more visitors. However many SEO firms do not offer Analytics as part of their service. Although all the traffic a web site receives is beneficial to a certain extent, some types are much more likely to convert into sales.

MAIN ASPECTS OF THE JUDI ONLINE PLATFORM

Traffic Sources

If you use standard statistics software you can identify exactly where visitors to your web site are coming from. By making use of The Judi Online Platform you can study each individual source of visitor, system or web site traffic to see how well it is converting.

With this information you can identify the type of search phrase or link that sends the most valuable customers to your site. Then you can put your RPA, SEO, SEA efforts into getting more of this valuable traffic from similar areas.

Site Behavior – By tracking the progress of visitors at your web site you can learn some very useful information. If you study the data on how long visitors stay on certain landing pages and how well different sales pages convert, you can make improvements to your site. By changing the under performing pages to be more like the most effective ones you can significantly increase your overall conversion rate.

DELTA

ONLINE RPA, SEO & ANALYTICS

JUDI ONLINE RPA, SEO, SEA & ANALYTICS STRATEGY

With The Judi Online Information Platform, the management can look into our corporate web forms of online RPA, SEO activities to assess your effectiveness. You can track the number of visitors or ip from a specific advert that go on to make a change, addition, update, upgrade or purchase and more at any site.

This information will tell you if the advert is worth the cost you are paying, it could also allow you to make accurate predictions about how a change in your advertising budget would effect profit levels. Other forms of searching such as google or bing campaigns and pay-per-click search concepts can also be tracked so you can continually improve your marketing efforts to make them more profitable.

If you use The Judi Online Information Platform on any/your web site or webshop not only will you find out what works but you will also find out what does not work. This can save you a lot of time and money. You could find that a very competitive keyword phrase that your web site has been targeting converts poorly. This type of information is vital because it allows you to use all your time and resources on bringing in traffic that converts well and improves your bottom line.

This part of the Plan describes the administrative and organizational aspects of The Marketing Platform & Online Service Platform. Indicated where the responsibilities lie and what resources and knowledge are required for the Judi Online Information Project to be implemented successfully.

It also sets out obligations and commitments to all parties involved should go to The Marketing Platform & Online Service Platform Project to be successful. In managing the Judi Project uses the control variables Time, Money, Quality, Information & Communication and Organization, abbreviated TGKIO.

On these variables will be reported and stirred. In the following pages discusses how the management variables are applied. Chosen for the following practical arrangements:

The steering committee "for the Judi Online "is performer Delta projects, and also the project coordinator. The Judi project coordinator has (only) a mandate to work in the line organization to carry out.

Project activities are performed according to the current rules for the Judi Projects. In the implementation of the Judi Online Information Project uses an internal concept, business plan and project.

Much of the work concerns the implementation of the Judi Projects. Whenever possible, use of internal (intrinsic) concept knowledge, practice and processes within the joint project.

That also means the use of own FTEs. In the interpretation of The Judi Marketing Platform & Online Service Platform Concept should explicitly look at development opportunities the Internet offers.

Where possible, use of resource capacity released to the benefit of The Marketing Platform & Online Service Platform Project. Work processes and procedures where necessary and in consultation with stakeholders appropriate to the nature and extent of the Delta Projects.

ORGANIZATION DELTA MEDIA

Judi Online Core Team

The core team is a small group of stakeholders and interested parties at Delta Media. The core team includes the project coordinator and representatives from the relevant project partners.

BRAND & MARKETING STRATEGY

THE DELTA MEDIA BRAND STRATEGY

Branding will be performed through the development and roll-out of content, products and services for Internet segments of Delta Media.

Branding is a specialized and unique way of approach to brand names by promoting different kinds of products, services in a consistent manner. Branding is the result of delivering high-quality services and products against a high level of performance, in which way the reputation of the brand name is established.

This is why Rudy Deighton created the last years a new/unique online concept named: The Delta Media Online Platform, that breaks new ground. Delta Media has put all products and services in this concept. Delta Media stands for marketing, promotion and launches activities, high quality SEO, Analytics and tracking concepts, outsourcing media, Menu POS, RPA, Scientist corporate products and services.

We distinguish the following concepts, Online Marketing Platform product and service

levels: Delta Media System:

1. Core Business Services & Products such as:
 - The Judi Online Marketing Platform
 - Media Hardware & Software gigs & tools
 - Delta Brand & Marketing Concepts
 - Visual Video Content Solutions
 - Host & Server Monitoring
 - Network Operation System
 - SEO, SEA & Analytics Solutions
 - Menu POS & RPA systems
 - Delta Visual Digital systems
 - International Monitor System
2. Multi Media Distribution System and Services
3. In Store Marketing and Narrow Casting Systems & Services
4. Integrated Systems (AMP, Data, Processing) & Services
5. International Digital Portals & Communities
6. Building websites, webshops & webmalls
7. Webcasting (Tickertape) & RSS (Really Simple Syndication)
8. Database Marketing, Customer Profiling
9. Collaborative Marketing: Event Marketing & 1-to-1 Marketing based on profiles
10. Loyalty Products and Billing
11. Designing and realizing Events & Congress
12. Viral web systems

OBJECTIVES AND BUILD-UP DELTA MEDIA BUSINESS PLAN

The strategy described in this plan is especially designed to handle the Delta Media RPA, SEO & Analytics Project.

The objectives of the Delta Media Business Plan are:

- To set the ground for a project to realize the Delta Media RPA, SEO, SEA, AMP & Analytics Project” to a unique combination of search tools, sites, Internet events and happenings on the Web globally
- Deliver a complete Business plan for the Delta Media Online Platform Project
- Deliver this Business plan on a unique and professional way
- Using all important points inside the Brand Architecture from the Delta Media company.
- Deliver financial planning, sponsoring and concrete forecasts .
- Deliver the playgrounds for distribute the Delta Media Online Platform Project International .
- Give insight into investment needs . Etc....

DELTA

ANALYSE STRATEGY

JUDI ONLINE ANALYSE STRATEGY

First the International Market is analysed for the Judi Online Information Platform Project. We distinguish five

different market sectors on which Delta Media will focus in the coming months July 2021 till 2023:

1. The Online Gambling Service Market
2. The Advertise Market
3. The Business-to-Business Market
4. The Luxury, Leisure, Automotive, Health, Sport Market
5. The News Market
6. The Entertainment Market

The country, sector, branche potential for the Judi Online Information Project, in short, is defined and the perception of the Delta Organisation, both and Branding concepts and commercial department P & R are studied. Next, a competitor analysis is made and strategic business partnership potentialities are described. The SWOT Analysis will also be used for the foundation of the Business Strategy.

A further so-called Conceptual Analysis studies the Unique Product Qualities of the Delta Media Online Corporate Service Project Concept, products and services. This, together with the answers on three questions, namely:

1. What kind of strategy, marketing or Business plan is Delta Media using?
2. What's the unique way Delta Media, created to launch teh project globally?
3. How do we deliver our message and content to all the countries, visitors, firms and goals? and the Critical Success Factors finally form the issues for the Business Strategy. (Delta Media Online Corporate Service)

The Delta Online Service Business Strategy is then defined and described in five steps to success:

1. Concept & Project Philosophy (Thinking out Of The Box)
2. SEO, SEA, AMP & Analytics Concept
3. Special Approach International
4. Corporate International Strategy
5. Branding the Judi Online Information Concept
6. Digital Portal & servers
7. Menu Pos & RPA systems
8. Launch & Monitor

and four areas each:

1. Know-How
2. Professionalism
3. Products & services
4. Concepts

Next, the Marketing Mix (Content, Promotion, Product, Place and People) is given and the Global Approach is described for the short, middle and long term.

The Delta Media organisation structure is described generally. Next, the most important issue, is the Financial Paragraph. The Financial Paragraph explains the Financial Plan (see annex 1 beneath).

In this section Delta explains how the Revenues will develop the coming three years, how much personnel is needed with what qualifications, what the costs will be to realise the revenues, what investments are necessary against which depreciation rules, what the liquidity prognosis will be from month to month, what the profit will be the coming years (Exploitation Prognosis) which will result in three Balances. Finally, the ratios and graphs are given.

In four annexes the following is described:

1. The Judi Online Financial Plan
2. The Product Data Sheet of Delta Media, describing in detail what the technological impact of Delta Media is
3. A few Example projects of the last years, giving an idea of the diversity of practical use of Delta Media
4. Conferences of the last years in which Delta Media has participated

DELTA

MARKET ANALYSIS

JUDI ONLINE OUTSOURCING MARKET ANALYSIS

GAMBLING MARKET SEGMENTATION

The Internet sector is based on visitor types. Therefore Delta Media has designed a Brand Name for:

1. The Sport, Music, Luxury Market
2. The Gambling & Business Market
3. The News Market.

CORPORATE BRANDING

A good and well-known brand is a very important marketing issue. The Delta Brand positioning is clear and consistent. The approach (how) is moving from existing ground (it's business as usual), via cross over (its unusual but fresh!) to new ground (it's business unusual).

The Delta Brand mix will be as follows:

1. Functional Benefits (reasons)
 - a. World Introduction & Launch
 - b. By Internet & Blog/Forum
 - c. Boost, Tracking & Analytics Strategy
 - d. Web Sites Strategy
2. Emotional Benefits
 - a. Rejuvenation
 - b. Enrichment
 - c. Creativity
 - d. Reward
3. Core Values
 - a. Fusion
 - b. Can do
 - c. Authenticity

ROLL OUT THE JUDI ONLINE MARKETING SERVICE PROJECT

The Roll-Out process balances ambition with operations, capability and commercial reality.

1. Phase 1: Judi Country Project Launches
 - a. US – Washington, Middle East – Dubai, Europe – Amsterdam, Asia – Jakarta, Russia – Moscow
 - b. Fiscal 2020/2022
2. Phase 2: Target Judi Online Information Project Partners Engagement
 - a. In all core countries
 - b. Fiscal 2020/2022
 - c. Target engagement will commence during fiscal 2020/2022 but will be adequate and appropriately resourced and commercialized in the following fiscal year
3. Phase 3: Targeted “Above-the-line” WEB Advertising
 - a. In all core business environment
 - b. Fiscal 2020/2022
 - c. Targeted above the line advertising will commence during fiscal 2020/2022 but will be adequate and appropriately resourced and commercialized in the following fiscal year

DELTA

CONCEPTUAL & ANALYSIS

Judi Online SEO Conceptual Analysis

The Conceptual Analysis studies the Business Case given the results of the Market Analysis and the Offering of products and services of Delta Media. From this, the best mix of products at the best moment and the best place, can be triggered.

Considering the marketing levers, we distinguish the following Marketing Issues:

1. Phases in the Mind Set of Customers/Audience
from Product to Visitor
2. Changes in the Value Chain
from Demand Creation, Online Corporate Service to SEO & Analytics Result
3. Strategy Focus change
from Sources of Volume to Tracking Leverage
4. Fundamentals that underpin all Marketing Efforts:
 - a. SEO, SEA, Retargeting Tracking System
 - b. Forward Monitor Planning
 - c. Analytics Consistency
 - d. System & Software Asset Development
 - e. Performance Search Management
 - f. Capability Development.

Within automated tracking offering in which channels like internet, media like community portals, web malls, social media, blogs, webcasting, etc. together with relevant content and search actions are used to leverage the triggering with suspects, prospects and customers into groups of visitors, we distinguish four relevant issues:

1. SEO, SEA, Adv Campaigns
Search Campaigns are set up to track visitors with the project
2. People
People are the visitors/customers and thus objectives of the SEO campaigns; within automated marketing offerings people should be identified and the identification should be authenticated
3. Connections
People must be interested into doing business; this results in connections of people with content; within automated marketing offerings these connections are registered as transactions
4. Content
The content of the Internet/website actions: not only information via websites and social media, but all relevant information for connections.

These relevant issues will have to be met in the automated offering. In other words, SEO Campaigns must be manageable. People within the offering must be identifiable with a high level of accuracy that the people we are dealing with are really visitors (authentication). Quality content/information must be used to persuade people into leveraging the value chain. And, finally, transactions must be used to give feedback to management processes.

DELTA

CORPORATE PRODUCT QUALITIES

CORPORATE UPQs

A specific unique product qualities of Judi Online Information service is:

SEO, SEA Analytics Products

- Delta Media delivers a unique SEO & Analytics Concept an special designed Business plan and a unique set of superior search tools, hard & software and services that can be used to retrieve higher retention rates and better tracking results against lower costs.
- The products and services can be combined into new marketing approaches like
 - SEO & Analytics systems, tool, hardware and software
 - Internet Web Platforms
 - Brand, Marketing & Promotion
 - Commercials & Advertising
 - Web Portals, Internet Sites & Communities, Web Malls and Web Shops
 - Webcasting (tickertape), RSS (Really Simple Syndication)
 - Database Marketing (Profiling, RFM Analysis, Loyalty Management, etc.)
 - CRM
 - Integrated SEO systems with products like
 - N.O.C (Network Operation Centre)
 - Monitor Modules
 - Level & Tracking Platforms
 - .
 - Interactive SEO & Analytics with products like
 - Automated Customer Profiling
 - Profile Based Geographical Monitoring
 - Interactive Launch facilities
 - One-to-One Marketing
 - Search Event Marketing

to deliver the highest competitive tracking results to our customers

Smooth Operations

- Delta Media has Business Partners like advertise and sponsoring deliver partners, International connections, enormous Business Database with addresses Worldwide and with extensive operational Analytics data for co-location and outsourcing

Profit Potential

The products and services deliver:

- The most sophisticated marketing offerings possible in which way branding processes can be highly automated
- The highest retention rates
- The most loyal customers/ambassadors
- Revenues on casted content (third party advertising) resulting in a higher sales and revenue volumes delivering better profit margins resulting in higher profit

DELTA

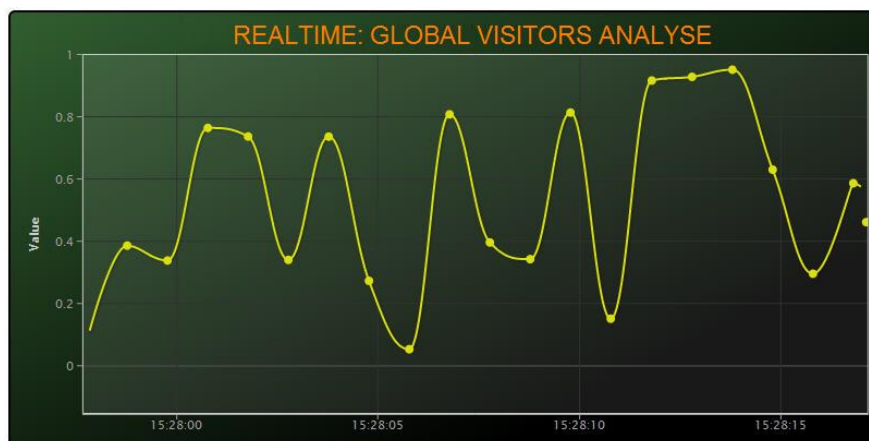

SEARCH MARKETING

ONE-TO-ONE SEARCH MARKETING

With the knowledge of the preferences and interests of the customer, the content in all kinds of locations like, the Internet, websites, blogs, social media, youtube, ebay and (virtual) marketplaces can be individualised.

One-to-One Search Marketing, SEO & Analytics Marketing and Tracking visitors will eventually merge together into One-to-One Search Results. This will have a highly positive effect on sales and of profit.

The combination with third party of tracking and boosting can result in significantly higher sales and promotion of up to 20 to 40 percent and profit of more than 30 percent.

Combined with loyalty programmes, sales and profits can be raised to an even higher level. Besides the effect on sales and profits, there is an extra effect: revenues through third party advertisements. With SEO & Analytics, Integrated Systems and Interactive Search extra revenues can be gained through casting third party advertisements on the Internet.

It is estimated that the costs for the Judi Online, SEO corporate concepts, products and services can fully be covered by the third party advertisement revenues, thus delivering extra customer loyalty and, with that, higher sales rates and higher profit for ... nothing.

Why The Marketing Platform? It has special SEO & Analytics concepts, products and services on all levels of the Internet product range, with, on every level significant distinguishing products of higher quality and services which result in higher sales, profits and customer retention for all Internet customers.

Delta Media offers, besides the SEO & Brand concepts, businessplans, products and services, turn-key solutions, lease concepts, loyalty programmes, Live Web and broadcasting systems, sponsoring solutions, advertising solutions and content delivery provisions.

DELTA

WORLD OF EXPERIENCE

WORLD OF EXPERIENCE

But these Delta products and services are still statically SEO marketing actions and approaches customers as viewers. Integrated SEO Systems combine several search loyalty tools to get higher retention rates and real visitors.

Finally, the interactive approach delivers a dynamic “world of experience” to customers in that they are directly addressed in the market place with information, pictures, video, products or services they really are interested in.

With the Delta products and services tracking becomes more and more an “art of experience”. The added value of the before mentioned Delta products and services thus not only delivers higher sales volumes with loyal customers and higher visiting rate, but the added value of each level plays a significant role in the distinction between one brand and the other.

DELTA MEDIA STRATEGY

Vision

By 2020-2023, The Judi Online Platform & Online Gambling Service Platform is a global platform for the business, health, sport, music, online gambling, gaming, leisure, luxury, news, leisure and entertainment Industry.

Mission

DELTA

GLOBAL FOCUS STRATEGY

4. Applause

- a. The **focus** in 2020-2021 is the introduction of the Judi Online Information Platform and roll-out. The Internet Strustrue will then be prepared and ready for new technology "Internet 8.0"
- b. The **geographical** expansion is extended.
- c. **SEO & Analytics Products and Services** are introduced to develop the SEO Future Experience
 - i. 1-to-1 SEO & Analytics Marketing and Event Strategy based on membership profiling
 - ii. Product, person and information Search & Analysis Technology and database analysis
 - iii. Lifecycle SEO Marketing (from visitor to ambassador) with follow-up marketing campaigns and SEO & Analytics actions to raise the retention rates
 - iv. Interactive Search through fast recognition and dynamic SEO content offerings
- d. The **result** of this integrated approach is called: **Applause** for this globally accepted and associated new SEO & Analytics Technology and of course high expectancy for the coming web structure.

5. Astonishment

The **focus** in the year 2020-2021 is the Partner & Visitor Results. Judi Online Platform is accepted as an online entity worldwide,

The **geographical** focus is **global**. More and more Judi Online SEO & Analytics tools are introduced. **SEO & Analytics Products and Services** in this year are totally focused towards to rules the Web

DELTA

GLOBAL FOCUS STRATEGY

FINANCIAL PROGRAMME PLAN

In this Financial Programme Plan a prognose amount of the costs and revenues will be given this year and for the Future. Costs and revenues are highly dependent of the realisation finishing all the Judi Online products, systems, tools and online corporate services used, by Delta Media for the Judi Online Platform Project.

Investment & Development Planning

Delta Media suggests that on a 1-2 yearly base the following must be agreed upon:

1. The services and products that will be introduced this year and in the next following years
2. The revenues from SEO Search Analytics, Tracking, webvertising, site advertising, third party services
3. The revenues from Country Fee, Memebership Fee, Click credit card transactions and loyalty transactions
4. The hire costs of SEO & Analytics products: initial, per week, month, quarter, and year
5. The costs of Search, Brand & Marketing services: initial, per transaction and fixed costs
6. Investments in Office, web Platforms, servers, hardware, software and management.

Costs must be distinguished between Delta Media, Judi Online Project & Business Partners, advertisers and third parties.

Based on these figures a year(s) plan can be derived and managed. From the financial data, decisions can be made to postpone or hasten the introduction of new products and services.

In the following paragraphs the costs and investments of the first step, building presence, are given together with the revenues that are possible from advertising.

Building Presence: Costs & Revenues

The major investments are:

1. *Realisation of The Judi Online Platform Business Plan & Online Service Concepts global*
 - a. *Web site Locations / Servers*
 - b. *Roll out the International Judi Online brand & marketing strategy*
 - c. *Sales en PR Strategy*
2. *SEO, SEA & Analytics Hard & Software, tools*
3. *Internet platforms & Digital Portals*
4. *Corporate Communication & Commercials*
5. *Search Engines Content & Information*
6. *Analytics Monitor Platform & Modules*
7. *Judi Online web facilities*
8. *Judi Online Management team*

- Decreased Cost per Lead
- Decreased Cost per Sale
- Increased Sales
- Measurable

DELTA

Delta Search "Engine Optimization" (SEO)

- The process of improving the visibility of a website or specific page in search engines through natural or organic search
- Utilizes search engine algorithms to elevate a site to top rankings in search results
- Considers how search engines work and what people search for
- Ongoing process (search engines continually refine algorithms)
- Key techniques include:
 - Editing content and HTML within a site
 - Increasing relevance for specific keywords and phrases
 - Removing barriers to search engine indexing
 - Building link popularity
- Related negative category: Black Hat SEO

DELTA

Delta aim to be the Leading Search Engine

- Google
- YouTube
- Bing
- Yahoo!
- Ask
- AOL

DELTA

How the Delta Search Engine Work

- Register Site with Search Engine
- Automated Site Crawlers (AKA “spiders” or “bots”)
- Index Content in Database
- Utilize Specialized Algorithms to Rank Sites
- Display Contents of Index Based on User Search Queries
- Constantly Adjusted Algorithms
 - Better user experience
 - More relevant search results
 - Level playing field

DELTA

How to Get Started with Delta Search Engine

- Determine your objectives
- Develop a search strategy
- Identify strategic keywords (including long-tail keywords)
 - Relevant to your business and products or services
 - Include negative keywords
 - AdWords or WordTracker
 - Leverage for both PPC and SEO
 - PPC results feed into SEO
- Develop Good Content Featuring Strategic Keywords
- Home Page Highest Priority
- Remember Your Home Page May Not Be the Entry Point

DELTA

Secrets of SEM

- Make Ad Copy Relevant to Search Terms
- Manage and Track Campaign
- Utilize Long-Tail Keywords
- Utilize Landing Pages
- Test Your Ads
- Adjust Budgets for Keywords
- Measure, Measure, Measure
- Optimize, Optimize, Optimize

DELTA

Delta Media's District Planner Recruiting

- Strategic Landing Pages Provide Details on Position
- Clearly Featured Call to Action (Yes, I'm Interested!)
- Follow Up Page Includes Short Response Form
- Both Pages Include Tracking Code
- Enables Accurate Measurement of ROI
- Provides Tracking of:
 - Impressions
 - Clicks
 - Applications Completed

DELTA

Delta Media's District Planner SEM Results

- 1MM+ Impressions per Month
- 2,500+ Clicks
- 9% Conversion Rate
- 50%+ Identified as Appropriate Candidates & Enter Interview Process
- Expanding Campaigns to Other Positions

DELTA

Delta SEO & Analytics Tactics: Internal

- Long-Tail Keywords
- Page Titles
- Headlines and Subheads
- Body Text
- Alternate Text for Images and Interactive Pieces (Flash, etc.)

1-1 What is Delta Media SEO & Analytics?

Delta Media SEO & Analytics is a unique web analytics tool which tracks user behaviour on the Internet.

1-1-1 How does Delta Media SEO & Analytics work?

Delta Media SEO & Analytics uses a combination of first party cookies and JavaScript to track user visits. Delta Media SEO & Analytics requires JavaScript tracking code to be added to every page on a website.

Unique International SEO & Analytics System

1-2 Why should you use Delta Media SEO & Analytics?

Tracking your website is the easiest and most valuable way to better understand customer behaviour, and base business strategies on real market data.

Main benefits of using Delta Media SEO & Analytics tracking tool:

- Optimize campaign efficiencies
- Understand a website's strengths and weaknesses
- Understand your website's poor performing products as well as best sellers
- Segment customers into different categories
- Obtain benchmarks that allow you to evaluate your website's performance from a market perspective

Resources:

>> [Click here](#)

to access Delta Media SEO & Analytics Website to see more about our GA interface

1-3 How to set up Delta Media SEO & Analytics for your website

To take advantage of GA features, you will need to implement the Delta tool on your website.

1. Order and Create a Delta Media SEO & Analytics account
2. Install the generated Delta Media SEO & Analytics tracking code on your pages (GATC)
 - a. Implement the GATC on every page of your website
 - b. Customize your code according to your website specifications and objectives
3. Use the admin interface to create different accounts and profiles (accounts and profiles are very valuable if you want to work on different websites, different domains and sub domains, different segments of data, limit users' acces etc.)
 - a. To create a new account click on the "drop-down" menu on the top right
 - b. To create a new profile click on the "add new profile" button for the corresponding account (You can create up to 25 accounts and up to 50 profiles for each account)

The image displays three screenshots of the Delta Media SEO & Analytics system interface, illustrating the setup and usage process:

- Top Left Screenshot:** "DELTA GBE SEO & ANALYTICS SYSTEM" - "Analytics: New Account Signup". Shows a form for creating a new account with fields for Website URL, Account Name, Time zone, and Country. A red circle '1.' highlights the "Analytics reports" section.
- Top Right Screenshot:** "DELTA GBE SEO & ANALYTICS TRACKING SYSTEM" - "Analytics: Tracking Instructions". Shows instructions for tracking, including a section "Paste this code on your site" with a code block. A red circle '2.' highlights the "Paste this code on your site" section.
- Bottom Screenshot:** "DELTA GBE SEO & ANALYTICS RESULT SYSTEM" - "Analytics Settings" - "Overview". Shows a dashboard for a website profile. A table lists website profiles with columns for Name, Reports, Status, Visits, Avg. Time on Site, Bounce Rate, Completed Goals, and Actions. A red circle 'a.' highlights the "Add new account" button, and a red circle 'b.' highlights the "Add new profile" button. A red circle '3.' highlights the "Overview" section.

2-1 What is a cookie?

A cookie is a text file stored as plain text on a user's computer by a web browser. The cookie is sent by a website to a web browser and then sent back unchanged by the browser each time it accesses that website.

2-1-1 Cookies categories

- **First party cookies:** Set by the site you are visiting
- **Third party cookies:** Set by partners of site you visit (e.g. sites which provide images to the current site)
- **Persistent cookies:** Remain when you close the browser
- **Temporary cookies:** Disappear when you close the browser

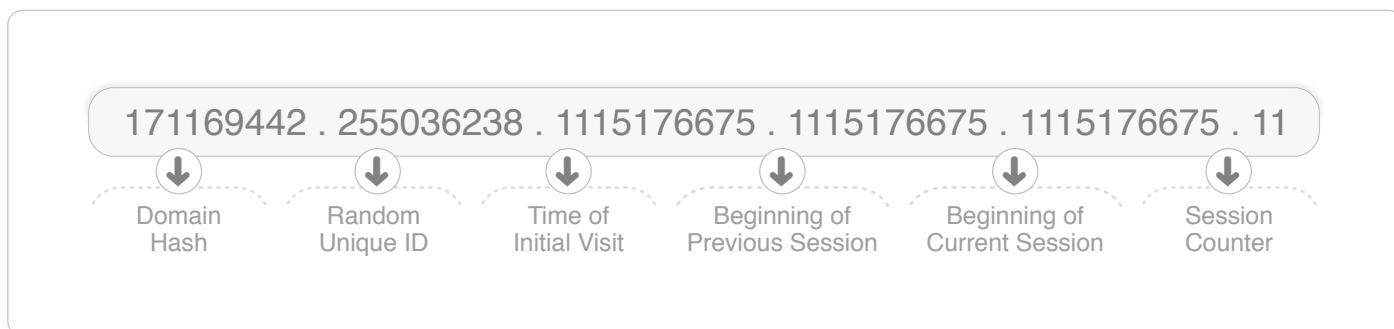

2-1-2 Cookies used in Delta Media SEO & Analytics

Cookies Type	Function	Duration
_utma	Visitor Identifier	Expires after 2 years
_utmb	Session Identifier	Expires after 30 minutes
_utmc	Session Identifier	Expires when you close the browser
_utmz	Campaign Values	Expires after 6 months
_utmv	Visitor Segmentation	Expires after 2 years

_utma, _utmb and _utmc cookies are implemented by default within Delta Media SEO & Analytics to track traffic.

2-1-3 _utma cookies structure

Here's a model structure of a _utma cookie:

2-1-4 _utmz cookies

_utmz cookies are used to track campaigns. By using _utmz cookies Delta Media SEO & Analytics will be able to identify a campaign, a medium, a source, a keyword and the different variations of an ad. These values are passed on the URL from the campaign source through to the website and stored in the _utmz cookie by Delta Media SEO & Analytics.

- _utmcsr = source
- _utmccn= campaign
- _utmcmd= medium
- _utmctd= keyword
- _utmctt= ad value

Delta Media SEO & Analytics offers a URL builder in its Help Center to generate tagged destination URLs.

DELTA

2-1-5 _utm cookies

_utm cookies are used to segment visitors into personalized categories. One common use of _utm cookies is to differentiate traffic from registered members and simple visitors. cookies, you will need to call **_SetVar** in your analytics code.

To activate **_utm**

2-2 Why are cookies useful?

_utm cookies are used to segment visitors into personalized categories. One common use of _utm cookies is to differentiate traffic from registered members and simple visitors.

Cookies are typically used to:

- Identify first time visitors vs. returning visitors
- Determine the site's sequence, i.e. visitors' interaction with website pages
- Correlate channels and campaigns with shopping activities
- Categorize campaigns
- Segment customers

Different cookies allow tracking of different types of information such as segmented traffic or campaigns.

3- Delta Media SEO & Analytics filters

3-1 What is a Delta Media SEO & Analytics filter?

A filter is a configuration parameter allowing the access of a certain segment of data. Applying a filter results in reports showing only the segment of data chosen by the user.

3-2 Why are Delta Media SEO & Analytics filters useful?

Filters are very helpful for businesses if:

- Your website is very diverse and you would like to be able to differentiate between reports
- Only a specific segment is useful for analysis purposes
- Raw data is too complicated to read in reports
- Some of the information displayed is private and you would like to limit its access

3-3 How to create filters in Delta Media SEO & Analytics

1. Go under the Analytics setting and edit the filter section
2. Create a new filter or apply an existing filter
3. Choose between predefined filters or custom filters
4. Fill in the filter type, filter field and filter pattern

Filters work sequentially. By applying conflicting filters they can cancel each other and result in the absence of any data in your report.

Filter 1>>> Filter type: include >>> Filter field: Visitor city >>> Filter pattern: Tokyo
Filter 2>>> Filter type: include >>> Filter field: Visitor city >>> Filter pattern: London
.....
Filter 1 >> Filter type: include >> Filter field: Visitor city >> Filter pattern: Tokyo|London

3-3-1 Predefined The Delta Media SEO & Analytics filters configuration

These filters have predefined options you can choose from:

Filter types:

- Include/ exclude

Filter field:

- IP: To exclude internal traffic (or traffic from any specific source)
- Traffic to subdirectory: To exclude/ include only traffic to a subdirectory (e.g. /sport/)
- Traffic from domain: To exclude/ include traffic from a chosen domain

3-3-2 Custom Delta Media SEO & Analytics filters configuration

With custom Delta Media SEO & Analytics filters you can create personalized reports focusing only on the information you need.

Filter type:

1. **Include/ exclude filters**
2. **Lowercase/ uppercase filters:** Convert the field into lower case or uppercase characters (e.g. you want to report "usa" and "USA" as unified data)
3. **Search and replace filters:** Search for a pattern within the field and replace it with something else. (e.g. you want to aggregate complex URLs into simpler strings)
4. **Advanced filters:** Construct a field from one or two other fields (E.g. When using multiple domains you will need to apply an advanced filter to differentiate the same requested URL*).

* URI (Uniform Resource Identifier):
is a string of characters used to identify a name or a resource on the internet.

Filter field:

You can apply custom filters to a wide range of category fields such as campaign source, hostname, visitor types, referral and many more...

3-4 Business perspective - Example of a filter

Scope: Create a filter to isolate reports for each of your sub-domains.

Hostname: www.example.com
Sub domain 1: maps.example
Sub domain 2: products.example

How to create a filter to track sub-domains

1. Under Analytics setting, create a duplicate profile for each sub-domain in your website
2. For each duplicate profile apply a predefined filter such as:
 - Filter type: Include
 - Filter field : domain
 - Filter pattern: maps.example for profile 1 and products.example for profile 2.

4- Delta Media SEO & Analytics advanced segmentation

4-1 What is advanced segmentation?

Advanced segmentation is an advanced feature in Delta Media SEO & Analytics aiming to create segments of data in order to analyze traffic through more focused information.

4-2 Why is advanced segmentation useful?

With advanced segments you can make your reports show only the subset of data you are interested in. If you select the returning visitors segment your report will only show data for visitors that have been to your website more than once.

DELTA

The screenshot shows the 'DELTA GBE SEO & ANALYTICS SYSTEM' dashboard. The main content area is titled 'Advanced Segments' and includes an 'Export' dropdown, an 'Email' button, and a list of 'Default Segments' such as 'All Visits', 'New Visitors', and 'Returning Visitors'. There is also a section for 'Custom Segments' which is currently empty. The left sidebar contains navigation options like 'Dashboard', 'Intelligence', 'Visitors', 'Traffic Sources', 'Content', 'Goals', 'Custom Reporting', and 'My Customizations'.

4-3 How to create a new custom segment in Delta Media SEO & Analytics

1. Select the metric or the dimension from the column on the right hand side and drag it into the work place
2. Choose the condition (Matches, Greater than, Contains...)
3. Enter the target value
4. You can combine multiple values and dimensions and apply them to the same segment

This screenshot shows the 'Create Advanced Segment' interface. On the left, a 'Dimensions' list is visible, with 'Visitors' expanded to show options like 'Hour of the day', 'Page Depth', and 'Days Since Last Visit'. A red circle '1.' highlights the 'Dimensions' header. The main area shows a configuration step: 'Out of a total of ? visits...'. A condition is set to 'Hour of the day' with the condition 'Matches exactly' (red circle '2.') and a value field (red circle '3.'). Below this, there are buttons for 'Add "or" statement' (red circle '4.') and 'Add "and" statement'. The interface also includes 'Test Segment' buttons and a final summary: '...this segment matches ? visits'.

4-4 Business perspective - Example of an advanced segment in Delta Media SEO & Analytics

DELTA

How to create this advanced segment?

1. Select the metric "Revenue" under the E-Commerce section
2. Select the condition "greater than"
3. Enter the value: x
4. Click the Add an "and" statement
5. Select the dimension "city" under the Visitor section
6. Select the condition "matches exactly"
7. Enter the value "The Netherlands"

5 – Goals in Delta Media SEO & Analytics

5-1 What is a goal in Delta Media SEO & Analytics?

A goal is a website objective - a desired action for the customers to take on a website. Goals can be as diverse as:

- Getting customers to spend a certain amount of time on a website
- Getting customers to view a certain amount of pages
- Getting customers to access a specific page
- Getting customers to sign up to a newsletter
- Getting customers to download a specific file, complete a transaction...

5-1-1 Types of goals in Delta Media SEO & Analytics

There are three types of goals in Delta Media SEO & Analytics:

- **URL destination goal:** Assess performance based on visitors who reached a specific page and visitors who did not (registration through to the thank you page, specific content, account sign-up etc.)
- **Time on site goal:** Assess performance based on visitors who spent a pre-set minimum or maximum amount of time during a visit.
- **Pages/visit goal:** Assess performance based on visitors who viewed a pre-set minimum or maximum amount of pages during a visit.

5-2 Why are goals useful?

Goals are especially useful for non-ecommerce websites as a tool to measure objectives. Goals are also very valuable for e-commerce websites aiming to measure non-transactional activities such as newsletter registrations. Goals help with identifying website objectives - the main reason for having your website.

5-3 How to set up goals in Delta Media SEO & Analytics

1. Under analytics settings > Select Profile settings
2. Click on Add goal
3. Enter goal information:
 - a. Enter a goal name
 - b. Select the goal type (URL destination match, time on site, pages/visit)
 - c. Fill in corresponding information according to the goal type as follows

Metric	URL destination goal	Time on site goal	Pages/visit goal
Condition	Head match: matches corresponding URL + additional parameters at the end of the string Exact match: matches the exact URL ReGex match: matches URLs depending on regular expressions	Greater than Less than	Greater than Equals to
Value	Goal URL: Destination page you want visitor to access	Determine the target time (hours, minutes, seconds)	Determine the target amount of pages to be viewed
Goal value	Determine the goal value	Determine the goal value	Determine the goal value

d. Choose to add a funnel (*) or not for URL destination match goals.

(*) A funnel is a navigation path chosen by you, determining a specific path for the visitor to take to reach the conversion page.

How to determine a goal value

Understand what the goal is bringing to your company from an e-commerce perspective. For instance imagine the sales team can close 10% of clients requested to be called back. Your average basket value is \$500. Then your goal value should be \$50.

The screenshot shows the 'Goal Settings' interface. Callout 'a' points to the 'Goal Name' field. Callout 'b' points to the 'Goal Position' dropdown. Callout 'c' points to the 'Goal URL' field. Callout 'd' points to the '+ Yes, create a funnel for this goal' checkbox. Three 'Goal Details' pop-ups are shown, illustrating different goal types: 'Time on Site' (Condition: Greater than), 'Pages Visited' (Condition: Greater than), and 'URL Destination' (Match Type: Head Match).

5-4 Understanding Delta Media SEO & Analytics Goals reports

There are 7 different reports displaying Goals information in Delta Media SEO & Analytics.

The screenshot shows the 'Goals Overview' report with a line graph of 'Goal Conversions' over time. A red circle highlights the 'Goals' menu item in the sidebar, with an arrow pointing to a list of report types: Goals Overview, Total Conversions, Conversion Rate, Goal Verification, Reverse Goal Path, Goal Value, Goal Abandoned, Funnels, and Funnel Visualization.

DELTA

5-4-1 Delta Media SEO & Analytics Overview reports

These reports give a general understanding of Goals performances day by day. How many Goals were reached in total? What is the conversion rate for each Goal? You can select the target Goal you want from a drop-down.

Overview Reports:

Overview report
Total conversion report
Conversion rates report
Goal value

5-4-2 Delta Media SEO & Analytics Goal navigation path reports

These reports display data regarding visitors' paths prior reaching the Goal. For instance, before subscribing, which pages did they visit?

Goal navigation path reports:

Goal verification report
Reverse goal path report

5-4-3 Delta Media SEO & Analytics Funnel visualization reports

These reports are only available if you apply a funnel to your URL destination goal. This will help you understand where visitors exited the funnel as well as identify conversion gaps.

Funnel visualization reports:

Goal abandoned funnels
Funnel visualization paths

5-4-4 Delta Media SEO & Analytics Goals reports

1. Goal data appears in most reports when clicking on the goal set # at the top of reports.

This option can be very valuable to assess which traffic source drives the most qualitative visitors.

5-5 Business perspective – Example of a goal

Scope: Configuration of a subscription goal.

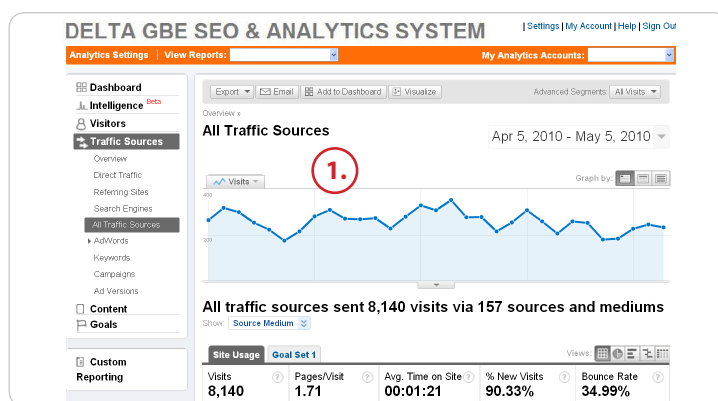

How to set up a subscription goal:

1. Select the URL destination goal type
2. Enter the URL of the "thank you!" page as the value:

```
{ /thankyou }
```

Define the goal value.

Output: Reports will allow you to access conversion rates for your sign-up forms.

You can set up to 25 goals in 5 different groups per profile.

Goal conversion can only happen once during a visit where as an e-commerce transaction can occur multiple times.

6- Custom visitor segmentation

6-1 What is custom visitor segmentation in Delta Media SEO & Analytics?

Custom visitor segmentation is an advanced feature of Delta Media SEO & Analytics to classify visitors according to pre-set categories, using the `_setVar` parameter.

Custom segments can be defined as follows:

- Members vs. non members
- Answers given to a specific form (social category, age, job category, likes and dislikes...)
- Existing customers vs. non customers

DELTA

6-2 Why is custom visitor segmentation useful?

Custom segments will help you assess performance by categories of visitors and thus help you review your positioning and strategies according to each segment results.

6-3 How to set up custom visitor segmentation in Delta Media SEO & Analytics

There are two different ways to set up custom visitor segmentation. The first way is to use the `_setVar` code and the second way is to use the `_setcustomVar` code.

6-3-1 How to set up user defined variables

1. Identify pages only accessible by segment (e.g. Thank you page for subscribers)
2. Add the following parameter to the tracking code:

```
{ <script type="text/JavaScript"> pageTracker._setVar ("value"); </script> }
```

6-3-2 How to set up custom variables

1. Identify pages only accessible by segment
2. Add the following parameters to the tracking code:

```
{ _setcustomVar (index, name, value, scope) }
```

Index	Custom variable id
Name	Custom variable name (e.g. member type)
Value	Custom variable value (e.g. free subscriber)
Scope	Custom variable level: "1" = visitor level (persistent cookie) "2" = session level (temporary cookie) "3" = page level (temporary cookie)

6-4 What to find on custom visitor segmentation reports

There are two reports for custom visitor segmentation. They are available under the visitor section.

FUTURE CORPORATE STRUCTURE

● = New corporate client

7-3 Why are regular expressions useful in Delta Media SEO & Analytics?

Regular expressions are the easiest way to define ranges of characters. In Delta Media SEO & Analytics they are mostly used when creating filters & goals.

Some use:

- Matching lowercase and uppercase characters
- Exclude a certain range of IP addresses from appearing in reports
- Only include traffic coming from 2 different cities, countries or regions
- Find traffic information related to a specific requested URI...

7-4 Business perspective – Example of a filter using ReGex

Enter Filter Information

Filter Name:

Filter Type: Predefined Exclude Include Lowercase Uppercase Search and Replace Advanced

Filter Field: Request URI

Filter Pattern: /packages.+\.co\.uk

Case Sensitive: Yes No

[Learn more about regular expressions](#)

8 - Domain and sub-domain tracking

8-1 What is Domain and sub-domain tracking in Delta Media SEO & Analytics?

Domain and sub-domain tracking is a Delta Media SEO & Analytics advanced feature to aggregate data coming from different domains and sub-domain sources.

8-2 Why is Domain and sub-domain tracking useful?

Sometimes websites display different sub-domain names or have a sister website that needs to be tracked as a single entity. By default the Delta Media SEO & Analytics tracking code doesn't allow tracking multiple domains and sub-domains.

8-3 How to enable domains and sub domains tracking in Delta Media SEO & Analytics

8-3-1 How to track multiple domains

1. Add the following parameters to the tracking code at the end of the tracking code:

```
{ pageTracker._setDomainName('none');  
  pageTracker._setAllowLinker(true);  
}
```

2. On the destination URLs of the sister site call the `_link` method:

```
{ pageTracker._link(http://www.example.com)  
}
```

! If you use a form instead of an outbound link call `_linkbypost()` instead of `_link()`

```
<script type="text/javascript">  
var gaJsHost = (("https:" == document.location.protocol) ? "https://ssl." : "http://www.");  
document.write(unescape("%3Cscript src=" + gaJsHost + "google-analytics.  
type="text/javascript%3E%3C/script%3E"));  
</script>  
<script type="text/javascript">  
var pageTracker = _gat._getTracker("UA-12345-1");  
pageTracker._setDomainName("none");  
pageTracker._setAllowLinker(true);  
pageTracker._trackPageview();  
</script>  
  
<a href="http://www.google.com"  
onclick="pageTracker._link('http://www.google.com');return false;">Go to  
our sister site Google</a>
```

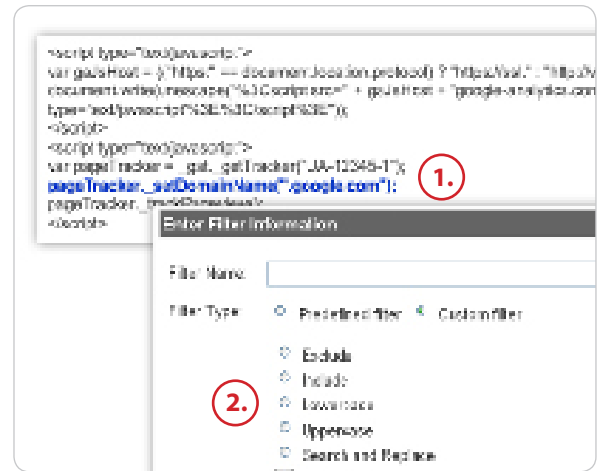

8-3-2 How to track across multiple sub-domain

1. Add the following parameters to each page of the sub-domain:

```
{ pageTracker._setDomainName("domain1.com"); }
```

2. Create a duplicate profile for each sub-domain and apply an advanced filter:

- filter type: advanced
- field A: Hostname
- Extract A: (.*)
- Field B: request URI
- Extract B: (.*)
- Output to: Request URI
- Constructor: ?\$A1\$B1

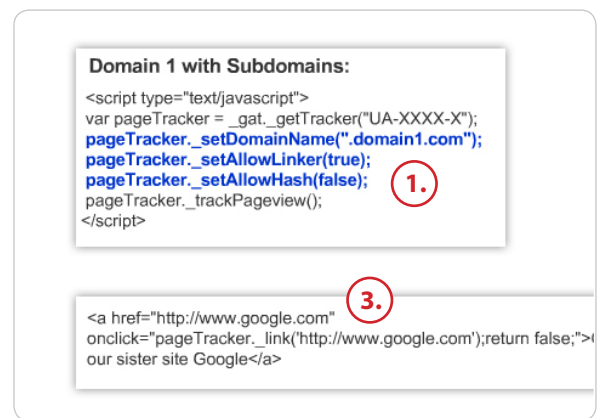

8-3-3 How to track multiple domains and multiple sub-domains

1. Add the following parameters to Google Analytics code:

```
{ pageTracker._setDomainName("domain1.com");  
pageTracker._setAllowLinker(true);  
pageTracker._setAllowHash(false); }
```

2. Repeat the operation for each domain that has sub domains.

3. Call `_link()` or `_linkbypost()` in all links and forms between domains.

9 - Delta MediaSEO & Analytics E-commerce tracking

9-1 What is Delta Media SEO & Analytics e-commerce tracking?

E-commerce tracking reports assess the site's e-commerce performance by clearly identifying which products are bringing revenue and which are not, as well as illustrating key trends about customer behaviour.

9-2 Why is Delta Media SEO & Analytics e-commerce useful?

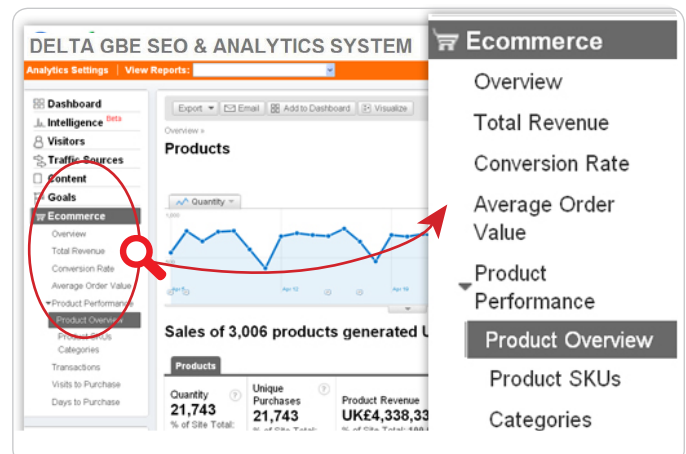

Delta Media SEO & Analytics e-commerce tracking is an essential feature to assess e-commerce performance.

E-commerce main benefits:

- Which traffic source drives higher conversion rates?
- What is the navigation path associated with a transaction?
- Which products are best sellers? Which products are poor performers?
- Determine the ROI of your marketing channels and campaigns
- What are revenues by categories of product?

9-3 What can be found in e-commerce reports?

There are 10 different reports under the E-commerce section.

DELTA

9-3-1 Delta Media SEO & Analytics Overview Reports

These give a general overview of E-commerce performance day by day.

Overview Reports:
 Overview report
 Total revenue report
 Conversion rate report

9-3-2 Delta Media SEO & Analytics Product Performance Reports

These display deeper information and identify best sellers categories, and details for each product.

Performance reports
 Product performance report
 Transaction report
 Product SKU report
 Category report

9-3-3 Delta Media SEO & Analytics Trending Reports

These give insights about customer purchasing patterns.

Trending reports
 Visit to purchase report
 Days to purchase report

9-4 How to enable Delta Media SEO & Analytics E-commerce tracking

1. Enable e-commerce by editing your Delta Media SEO & Analytics profile information under the Analytics settings.
2. Make sure that the Delta Media SEO & Analytics tracking code is implemented on your receipt page.
3. Add some additional code in the receipt page:
 - a. **_addtrans ()**: Understands a transaction occurred (details about the transaction)
 - b. **_additem ()**: Gives details about the product (Price, category, SKU...)
 - c. **_tracktrans ()**: to track the transaction with Delta Media SEO & Analytics

The screenshot displays the 'DELTA GBE SEO & ANALYTICS SYSTEM' interface. On the left, the 'Edit Profile Information' settings are visible, with a red circle '1.' highlighting the 'E-Commerce Website' section where the 'Yes, an E-Commerce Site' option is selected. On the right, a 'Receipt Page' code snippet is shown with a red circle '2.' pointing to the tracking code implementation and a red circle '3.' pointing to the JavaScript code. Annotations 'a.', 'b.', and 'c.' are placed next to specific code functions in the snippet: 'a.' points to `pageTracker._addTrans()`, 'b.' points to `pageTracker._addItem()`, and 'c.' points to `pageTracker._trackTrans()`. The code snippet includes parameters for order ID, item name, price, category, and quantity.

10-1 What is Delta Media SEO & Analytics internal site search tracking?

Internal site search is a report that tracks how your website users search information within your site. Internal site search is only available for websites displaying site search boxes.

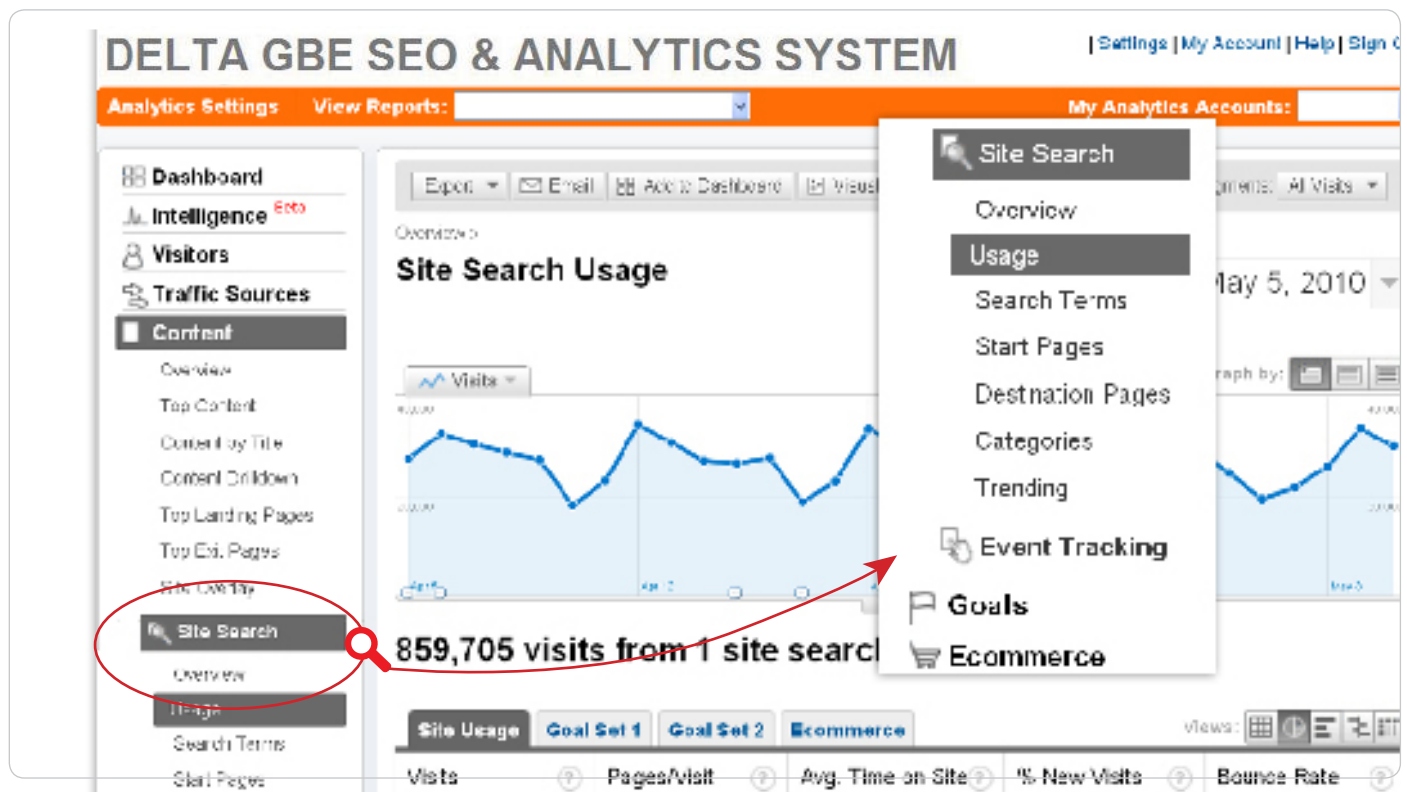

10-2 Why is Delta Media SEO & Analytics site search tracking useful?

Site search tracking is very valuable to answer the following questions:

- Which products are searched by users?
- Where did visitors start and finish their search?
- Did searches result in conversion?
- Identification of missing or hidden content
- Assessment of ineffective search results
- Identification of non identified keywords

10-3 What can be found on site search reports?

The site search report is available under the content section. 7 reports are available under the site search section.

10-3-1 Delta Media SEO & Analytics Overview Reports

These reports give an overall understanding of the impact of searches for your website compared to visits without searches.

11 - Delta Media SEO & Analytics event tracking and virtual page views

11-1 What is Delta Media SEO & Analytics event tracking?

Event tracking makes it possible to track all sort of events that do not generate page views.

11-2 Why is Delta Media SEO & Analytics event tracking useful?

Some websites have mostly dynamic content. Their aim is generally to make people interact through different types of application (games, videos, pictures...). Event Tracking is a useful feature to track this interaction.

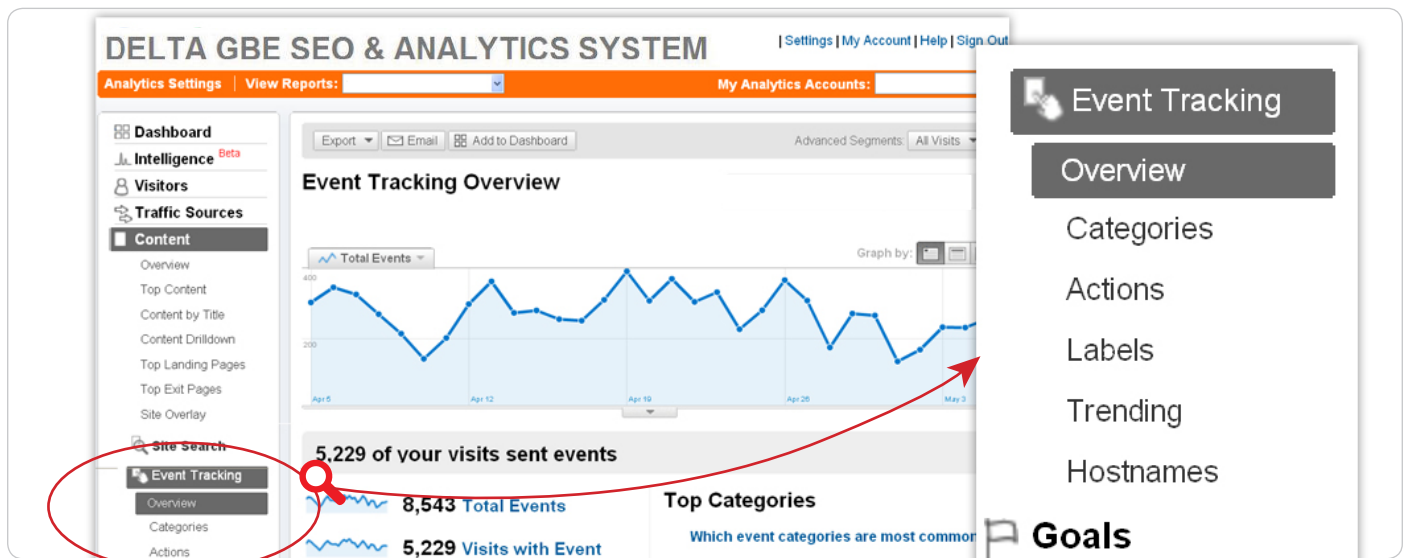

Event tracking can track all of the following items:

- Flash/ video players
- JavaScript and AJAX
- Dynamically generated pages (cgi, asp, php)
- File downloads
- External links

DELTA

11-3 What can be found on the Delta Media SEO & Analytics Event tracking reports?

There are 6 different reports under the Event Tracking section. Event tracking reports are displayed under the content section.

11-3-1 Delta Media SEO & Analytics Overview report

Overview reports compare traffic data between visits where at least one event has been executed with visits where no event was run. Overview reports also display information related to the amount of events executed per visit.

Overview Reports
Overview report

11-3-2 Personalized Delta Media SEO & Analytics reports

The Event tracking configuration allows Delta Media SEO & Analytics to apply parameters for each event in the following areas: category, label and trending. These three reports will display data for each of these items according to your pre-set features.

- Category refers to the type of event (mostly video, downloads, games...)
- Label gives further information about the event (for instance the name of a movie for a video)
- Action refers to the type of action needed to execute the event (for instance play or stop for a video)

Personalized Reports
Category report
Label report
Action report

11-3-3 Delta Media SEO & Analytics Trending report

This report assesses events performance day by day. It also reports the number of events per visit.

Trending Reports
Trending report

11-3-4 Delta Media SEO & Analytics Hostname report

This report allows you to view traffic performance's according to different domains and sub-domains on which you implemented your tracking code.

Hostname Reports
Hostname report

11-4 How to track events

1. Make sure you are using **ga.js** (not allowed with Urchin)
2. Call **_trackEvent ()** in your source code:

```
{ _trackEvent (category, action, optional_label, optional_value) }
```

11-5 Business perspective – Example of an event tracking

Scope: Track video events to understand the most viewed videos on your website.

How to track a video event with event tracking? Call **_trackEvent ()** on the video page source such as:

```
{ On Release (button) {get URL ("JavaScript: pageTracker._trackEvent ('video', 'play', 'movie drama');" }
```

DELTA

11-6 How to track events using Delta Media SEO & Analytics virtual page views

Virtual pageview is an alternative way to assess events performance for a website. It can be very valuable to track outbound links on a website (each time a visitor clicks on a link that redirects to an external link) or a succession of actions that take place at different stages of filling in a form within the same site page.

To track event with virtual pageview:

Add the following parameters to the tracking code:

```
pageTracker._trackPageView  
<a href="http://www.example.com" on click="JavaScript:pageTracker._trackPageView ("(name of the event)","download/example.pdf");">
```

12- Delta Media Clicks and other advertising campaigns

12-1 What is Delta Media Clicks?

Delta Media Clicks is a Cost Per Click tool by Delta Media SEO & Analytics refers to every sponsored link appearing on any search engine results.

12-2 Why is Delta Media Clicks useful?

Delta Media Clicks is a powerful means of advertising your products to specific targets.

Delta Media Clicks

- Targeted advertising: Your ad appears for chosen keywords only
- Cost effective advertising: You only pay for clicks delivered from potential customers
- Results driven analysis: Tracking Delta Media Clicks under Delta Media SEO & Analytics allows tracking financial calculations such as ROI, Revenue per Click, margin
- Adwords tracking differentiate CPC campaigns from organic traffic

main benefits:

12-3 How to enable Delta Media Clicks tracking

To track Delta Media Clicks campaigns you can choose to either track manually or enable auto-tagging.

12-3-1 How to track Delta Media Clicks with auto-tagging

Tracking Delta Media Clicks with auto-tagging will apply "gclid" to your links (www.mysite.com/?gclid=123xyz).

1. Link the Delta Media Clicks account with Delta Media SEO & Analytics: >> Reporting section >> Delta Media SEO & Analytics
2. Allow auto-tagging: >> My account >> Preferences
3. Enable cost data >> Reporting section >> Delta Media SEO & Analytics >> Select the profile >> Tick the apply cost data checkbox

The screenshot displays the Delta Media SEO & Analytics System interface. The main navigation bar includes Home, Campaigns, Opportunities, Reporting, Billing, and My Account. The 'Reporting' section is active, showing 'Getting Started' and 'Improve your site and increase marketing ROI.' Below this, there are three numbered steps: 1. 'Create my free Google Analytics account.', 2. 'I already have a Google Analytics account. Please link it to this AdSense account.', and 3. 'Cost source from Adwords for user 7474' in the 'Apply Cost Data' section. The 'Preferences' section is also visible, showing 'Auto-tagging Yes Edit'.

DELTA

12-3-2 How to track Delta Media SEO & Analytics and other PPC campaigns with manual tagging

1. Apply the following parameter to your destination URLs:

utm_source: identify an advertiser (Google, Bing, Yahoo, third party website...)

utm_medium: advertising medium (email, CPC, banner ads...)

utm_campaign: campaign name (Easter, Christmas, Shoes discount...)

2. Apply the following optional parameter to your destination URLs:

- **utm_term:** paid search keyword

- **utm_content:** different versions of an ad

Tagged URL – Example:

`http://www.mysite.com/?utm_source=Google&utm_medium=cpc&utm_term=mykeyword&utm_content=punchy%2Bversion&utm_campaign=easter%2Bpromo`

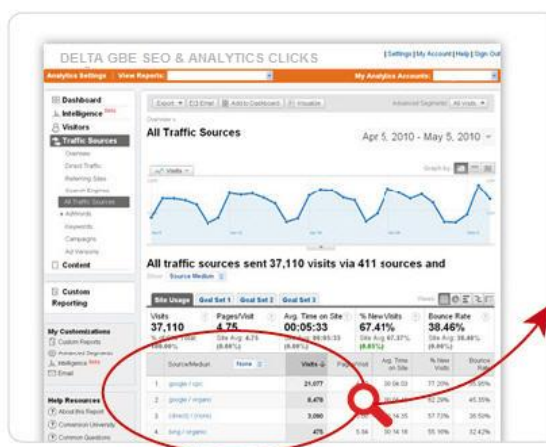

12-4 What can be found on Delta Media SEO & Analytics Clicks reports and other advertising reports

There are various reports available displaying information related to CPC and other advertising campaigns under Delta Media SEO & Analytics.

12-4-1 All Delta Media SEO & Analytics traffic report

All traffic report
All traffic report

This report categorizes your traffic according to its source. You will be able to easily assess your paid traffic performance compared to organic, referrals and direct traffic.

Source/Medium	Visits ↓	Pages/Visit	Avg. Time on Site
1. cpc	21,077	4.82	00:04:03
2. organic	8,478	4.19	00:04:18
3. (direct) / (none)	3,090	5.60	00:14:35
4. bing / organic	475	5.84	00:14:16
5. logiforms.com / referral	475	1.71	00:02:42
6. yahoo / organic	348	3.91	00:03:40
7. uk.mg40.mail.yahoo.com / referral	104	5.36	00:11:51

12-4-2 Delta Media SEO & Analytics Clicks report

Adwords reports breakdown Clicks performance into 3 different levels: Ad campaign, ad groups and Click. This helps you categorizing performance according to specific marketing strategies. By clicking on "click section" (1), cost data will appear on the interface.

Clicks Reports
Clicks campaign
Keyword position

Finally Delta Media SEO & Analytics Advertising reports

These reports basically allow you to access information according to the way you set up cookies information via manual tagging.

DELTA

DELTA SEO & ANALYTICS

How Delta Media SEO & Analytics engines rank web pages?

This section is a bit technical but it will help to understand how our Delta search engines specify the position of a web page in the search results.

The Delta SEO Search engines use mathematical formulas to determine the rank of a web page. These mathematical formulas are called ranking algorithms.

All major search engines use the same principle to rank websites. The exact ranking algorithms differ from search engine to search engine but the principle is the same. We'll use the ranking algorithm of Delta SEO & Analytics as an example.

How does Delta Media SEO & Analytics rank (y)our web pages?

Delta SEO & Analytics explain the ranking algorithm:

"Traditional search engines rely heavily on how often a word appears on a web page. Delta Media uses PageRank™ to examine the entire link structure of the web and determine which pages are most important.

It then conducts hypertext-matching analysis to determine which pages are relevant to the specific search being conducted. By combining overall importance and query-specific relevance, Delta Media is able to put the most relevant and reliable results first."

As mentioned in the quote, Delta Media uses PageRank (which is a mathematical formula and *not* the same as the green bar in the your search engine toolbar) and hypertext-matching analysis to rank your web pages.

What does this mean?

Firms needs good links

To get good results for the PageRank factor, you need good links from related pages that point to your site. It's a simple principle: if page a links to page b then it is a recommendation from page a to page b. The more links point to your website, the better your rankings.

The quality of the links is also important. A link that contains the keyword for which you want to have high rankings in the link text is better than five links with the text [Click here](#).

A link from a website that has a related topic is much better than links

from unrelated sites or link lists. The link builder tool in IBP will help you to get high quality links as easily as possible. Details about IBP's link builder tool can be found later in this Delta Media Business Plan.

DELTA

Firms needs optimized web page content

While the linking concept is easy to understand, the hypertext-matching analysis factor is a bit more complicated. Here we explain hypertext-matching analysis as follows:

"Hypertext-Matching Analysis: Delta's search engine also analyzes page content. However, instead of simply scanning for page-based text (which can be manipulated by site publishers through meta-tags), Delta's technology analyzes the full content of a page and factors in fonts, subdivisions and the precise location of each word.

Delta also analyzes the content of neighboring web pages to ensure the results returned are the most relevant to a user's query."

As Delta analyzes the full content of your pages you also have to optimize the full content of your web pages. It is not enough to edit your meta tags. You have to optimize all factors that can influence your search engine rankings.

The problem is that many webmasters don't know which page factors can be important. That's why we developed IBP's Top Optimizer. IBP's Top 10 Optimizer will analyze all important web page factors so that your web pages will be perfectly prepared for Delta's hypertext-matching analysis.

One page is not enough

As mentioned in the explanation of Delta's hypertext-matching analysis, Delta also analyzes the content of other web pages on your site to ensure that your web page is really relevant.

That means that you must optimize different pages of your website for different but related search terms. The more web pages of your website are optimized for keywords about a special topic, the more likely it is that you'll get high rankings for a special keyword that is related to that topic.

It is not enough to optimize a single web page.

DELTA

Black-hat and white-hat SEO

Some search engine optimization companies and software tools use unethical techniques and tricks to artificially boost the search engine rankings of a website. This dilutes the quality of search results and calls into question the accuracy of search results. These methods are called black-hat SEO.

Black-hat SEO is very risky

Search engines don't like to be cheated. For this reason, they are continuously trying to counter the spam techniques which webmasters might be using and penalize or ban them.

Search engines continue to reconstruct their algorithms to prevent spammers from flooding the results page with irrelevant or low quality content.

You might get short term results with these techniques but it is very likely that your site will be banned from search engines if you use them. You'll put your web business at severe risk if you use black-hat SEO methods.

Delta Media uses white-hat SEO methods

Delta Media uses only ethical search engine optimization methods. These methods are called white-hat SEO. Delta Media uses only techniques that produce lasting results and that don't offend search engines.

Ethical search engine optimization (white-hat SEO) is about everyone winning. It leads to a symbiotic relationship:

- Delta SEO & Analytics engines: They win as they are provided with pages that are easy to understand and that contain the quality information that their visitors search for.
- Searchers: They win as they are getting what they ask for from the search engines. They search for "inexpensive mp3 players" and get a page about inexpensive mp3players.
- Web site owners: They win as they are getting quality visitors who are interested in what their website has to offer.

Delta SEO & Analytics help you to track visitors to websites that are beneficial to web surfers, website owners and visitors.

DELTA

Why keywords are the most important part of SEO

A number 1 listing on Delta SEO can be pointless if it is for the wrong keywords.

If the wrong people or too few people search for that keyword then your SEO efforts will be in vain. The keywords that you choose are the most important factor that decides whether you succeed or not.

If you target the wrong keywords, you'll waste a lot of time, energy and money.

BE CAREFUL: Think twice before you start.

Many webmasters think that they already know the best keyword for their websites. If they haven't done some research, they are usually wrong. There are several reasons for that:

- You know your business much better than anybody else. You know the special terms that are used in your branch and you know what you should search for when you're looking for products like yours.
- Your customers don't know as much as you. They don't know your terminology and they might use totally different keywords. For example, a recent study found out that many people search for the keyword "nose job".
- Did you consider the intention of the searcher? Just because a keyword is used very often on search engines it doesn't mean that you'll get many customers. People who find your website through a special keyword is not interested in purchasing.

It's very important that you take some time to find the best keywords for your website. The time and efforts that you invest in finding the right keywords will pay back in no time.

Choose the right keyword type to get more conversions

When web surfers want to purchase something online, they go through three research phases. Web surfers usually start with general keywords.

After becoming more educated about a particular product or service, they will use more specific keywords. As soon as the web surfers know what they want, they use specific keywords.

DELTA

The best keywords for the Delta Media SEO & Analytics

Keywords for comparing are usually the keywords that work best for the Delta search engine optimization. People who use that keyword type are looking for a solution to their problem and they are ready to buy.

To get best results with your search engine optimization efforts, you should concentrate on that keyword type.

Do not use single word keywords

Single words cannot be promoted effectively. For example, it is not likely that someone looking for "free accounting software download" is going to type just "software" into the search box.

Avoid the most popular keyword phrases because you'll be competing with millions of other pages for a search engine's attention. It is unrealistic to think that a new website could rank number one on a popular phrase like "mp3". More established companies who have been on the Internet for several years will have the big advantage of a high link popularity.

People who use multiple word keywords are in the compare or buying phase. They are more likely to purchase goods or services than those using fewer words (source: Oneupweb Research).

Multiple word keywords make your website more relevant

The Delta Search engine analyzes all pages of website and puts them in a context. Start with multiple word keywords and then extend your keyword list.

If you're selling MP3 files, you should optimize your web pages for keywords such as "independent bands mp3", "alternative grunge mp3", "80s pop music mp3 download" and similar keywords first.

If a website has many rankings for these keywords, search engines will find out that your website is relevant to the mp3 topic.

As soon as search engines consider your website relevant to this topic, it will be easier to get high rankings for keywords such as "mp3 download" or "mp3".

DELTA

SEO & ANALYTICS SERVICES

As your organizations reliance on IT increases, the pressure for performance and availability raises. But do you have the right physical environment and 24x7 service coverage to cope with the increased demands?

Outsourcing of services within a purpose-built data center makes sound business sense, particularly in volatile times, whether due to market uncertainty or rapid growth. Anything other than the core business is an overhead that could potentially be obtained as a service at a predictable cost. It is invariably more cost effective than providing the service in-house, although cost is only one of numerous benefits of an outsourcing decision.

Why use our Global Interface data center?

The majority of corporate data centers are housed within relatively expensive office space in city locations, not designed for housing computer equipment. When the data room is built, many costly compromises are made due to physical restrictions or landlord regulations. Apart from that, valuable office space on A-class office locations is sacrificed to computer systems.

The economies of scale reached in purpose-built data centers with regards to space, power-cost and network connectivity provide huge cost-, quality- and flexibility benefits compared to an in-house data room facility.

As your organization grows so do the mission critical resources it requires. When a new data room or more space is required it can be a difficult issue

to resolve due to limited space and conflicting demands. Our data center measures 30,000 square feet (2800 m²), providing ample space for current and future requirements. Moreover, we can reserve contiguous space — racks, cages and even complete rooms — for future needs.

Likewise, for a company that needs to scale down due to economic slowdown, the use of data center services ensures that it has the flexibility to do so.

In summary, the benefits of using purpose-built data center space are:

- flexibility in the amount of space used
- instant availability
- cost savings and minimized capital investment
- purpose-built environment, no compromises
- superior internet and telecom facilities
- superior physical security

MISSION CRITICAL OUTSOURCING

MISSION CRITICAL OUTSOURCING

DELTA MEDIA SEO & ANALYTICS SERVICES "Partner" Data Center

Partner TMDhosting' data center at Schiphol-Rijk (Amsterdam & more) is among the best data centers in the world. The whole building was specifically designed to create an optimal environment to house computer equipment. The facility is specified to the highest standards and based on many years of data center experience. All components are selected for their best-of-breed industry quality.

The center is monitored and controlled by the BMS (Building Management System), which manages the data center's power, humidity, temperature and fire suppression system. Schuberg Philis' technicians are alerted to any potential problems or actual changes in the environment.

Physical security is addressed as well. We offer the most comprehensive procedures and systems available, including extensive CCTV and 7x24 on-site security guards.

Our data center services include:

- Provisioning of secured, carrier-grade and scalable space for equipment, 2800 m2 in total
- Provisioning of scalable and reliable access to the telecommunications and internet infrastructure
- Provisioning of physical and network security
- Professional monitoring and alerting for all critical systems

In addition, in line with Schuberg Philis' core focus, as our customer you can take one step further and fully rely on us to manage your mission critical application infrastructure, including network, security, servers, storage, operating systems, databases and middleware applications. The Mission Critical Outsourcing Platform (MCO-Platform™) relieves our customers from the need to be involved in infrastructure-and technical application management, so that they can fully focus on the functional part of their IT environment.

About our Partner TMDhosting

TMDhosting is a privately owned highly flexible IT company, with dedicated customer teams that design and watch over infrastructures tailored to meet companies' unique needs.

TMDhosting manages many companies' mission critical application infrastructures, guaranteeing 100% uptime through a unique way of working.

DELTA MEDIA SEO & ANALYTICS SERVICES Data Center Specifications

Area	The usable area of the data center measures 2800m ² (30,000 square feet).
Physical Security	The AboveNet data center is guarded 24 x 7 by security guards patrolling the building, monitoring the CCTV and other security related systems. The CCTV system records all movements in the data center using more than 140 motion activated camera units. The entrance to the center is guarded by a security guard, day and night, working from a bullet-proof loge. Customers are on an access list and picture identification is required to be granted access to the building. Access to rooms within the data center is monitored and controlled by a badge reading system.
Power Facilities	<p>The data center has redundant private high voltage connections to the nearest power distribution station with a total maximum capacity of six MegaWatt. To provide continuous and clean power to the systems running in the data center, four Hitec® Continues Power Systems (CPS) are installed, one of which is dedicated as a reserve backup to support any of the other three CPS units. A CPS unit consists of an electric motor, electric generator and a 16-cylinder Mitsubishi diesel engine with an inductive flywheel. This flywheel is continuously spinning to 'clean' the power from spikes and dips and to ensure that no phase or amplitude discontinuities occur if the power provided by the electricity company fails.</p> <p>A 30,000 liter underground diesel storage tank guarantees that if the electricity company's service fails we can run undisturbed for over 3 days. The power for all computer rooms is provided by a Busbar® system.</p> <p>AboveNet guarantees 2300 watts per rack through dedicated 10 Amp circuits utilize wiring with independent neutral feeds and dual fed Critical Load Distribution boards. This is more than sufficient for normal server and network equipment. Of course, additional power can be allocated if required.</p>
Fire Protection	<p>In the data rooms a VESDA (Very Early Smoke Detection Alarm) system detects all airborne particles passing through the laser chamber and samples air every 5 seconds providing early alerting of fire threat.</p> <p>Fire suppression in all data rooms is provided by an Argonite® fire suppression system. Argonite extinguishes fire by physically removing oxygen from the atmosphere to a level where in a closed space almost all fires are extinguished in 30 to 45 seconds. The main advantage of Argonite extinguishing is that it is not harmful to computer equipment as it is clean, odorless, non-toxic, non-corrosive and electricity non-conductive.</p>
Ventilation and Airconditioning	Cooling is provided by six roof-mounted Liebert-Hiross Super Chillers which provide chilled water to the ACU's (air conditioning units) in all equipment rooms. Each room has it's ACU's divided into 2 groups, each group is fed by a different Super Chiller and separate power supply. The amount of ACU's in each room is almost triple the amount needed to cool the environment. Temperatures are maintained constant in every equipment room at 20°Celsius and humidity is kept at 50%.

DELTA

Telecom and Internet
Connectivity

AboveNet

The Data Center itself hosts the Dutch central node of the AboveNet Tier-1 global IP network, providing high-quality IP connectivity. The AboveNet network provides unsurpassed Internet performance (measured by bandwidth, latency and packet-loss), due to the fact that it is based solely on fiber links with high-end backbone routers. No Tier-1 network provider has better real-life performance which is caused by the unique amount of peering connections that AboveNet has installed, resulting in very efficient routing. All Internet connections are based on 100 Mbps Fast Ethernet or Gigabit Ethernet and can use the full bandwidth; no limiting traffic shaping is in place.

AMSIX

As for AMSIX connectivity, the center has readily commercially available redundant private fiber connections to AMS-IX (Amsterdam Internet Exchange, where all relevant Internet network providers are connected). Multiple providers offer connectivity to the AMSIX sites (SARA, NIKHEF, TeleCity and Global Switch) ranging from 10 Mbps till 10 Gbps or dark fiber.

NL-IX

The AboveNet datacenter hosts the NL-IX network node (Dutch National Internet Exchange, where local ISP's and content parties can interconnect). AboveNet datacenter customers can easily connect to the NL-IX and peer with lots of Dutch ISP's and content players.

Carriers present

Apart from the AboveNet network the following commercial network providers have presence in the AboveNet datacenter:

- KPN
- Versatel
- Colt
- @home
- Priority Telecom
- Global Voice Networks
- Interoute

MISSION CRITICAL OUTSOURCING

DELTA
IN A
NUTSHELL

THE
DELTA
SEO & ANALYTICS
CONCEPT

DELTA

MARKETING PLATFORM

What is the Delta Media SEO & Analytics Concept?

- Unique and new web hosted SEO & analytics tool to help you tracking more effective quality visitors and analyse ROI
- Making your online search & web site activities more accountable
- Tweak your website to ensure you are getting maximum tracking, leads, promotion, visitors, marketing, Pr and conversion

DELTA

MARKETING PLATFORM

Why Delta Media SEO & Analytics ?

- Unique, fast, transparent
- Custom reporting
- Easy to use, intuitive
- Gets you most of the data you require
- Secure - first party cookies

DELTA

MARKETING PLATFORM

Disadvantages of Delta Media SEO & Analytics

- Browser needs to be Java Script enabled
- Cannot compute how much time is spent on one page if the visitors exits immediately
- Not real time analytics, there is a short delay before the data is captured

DELTA

MARKETING PLATFORM

Basic Reports

- These few reports are bound to be “enough” as a basic exploration for any company on Delta Media SEO & Analytics.
 - Dashboard
 - **Visitors** (who are they, how many times they viewed information, which city are they from, how many of them are new visits)
 - **Traffic Sources** (which sites sent you the most traffic, what keywords do people search on search engines to get to your website)
 - **Content** (which pages are most viewed, which ones have immediate exits “high bounce rates” which means that the content is irrelevant/not interesting to visitors)
 - **Goals** (how many visitors perform actions which will generate sales/sales lead for your business)

DELTA

MARKETING PLATFORM

A little deeper into Delta Media SEO & Analytics

- A. **Visitors** (cross tab to see which contents are visitors from a particular city interested in, etc)
- B. **Traffic Sources** (which traffic sources produce the highest bounce rate etc)
- C. **Content** (how do users navigate through your website, which pages first, second third and where do they leave your website)
- D. **Goals** (discovering at which process you lost your customers at sales funnel, e.g. users click on products, then add to shopping cart, check out, submit payment details, confirm)

DELTA

MARKETING PLATFORM

Even more advanced stuff

- You are able to track events on your page (something our system does not pick up on automatically), e.g.:
 - Clicks on “Add to shopping Cart” or “Sign Up here”
 - Set up sales funnels
 - Set up multiple profiles filtering information which is essential to you, e.g. look at customers from a certain part of the world only
 - Set up Internal Site Search using Delta Media to maximise results
 - Customise reporting
 - Campaign attribution (Tag email marketing campaigns, etc)

DELTA

MARKETING PLATFORM

Another Delta Media SEO System

- We were interested in the following metrics:
- What was the most visited page?
 - What websites referred them to the page?
 - Did they bounce out?
- Home page: How many of the visitors went on to look at your portfolio, blog, About you?

DELTA

MARKETING PLATFORM

If you feel

- That your current marketing team is not working well, but you cannot pinpoint why
- You cannot get your product, firm or website brand online
- That your current marketing strategy is a waste of investment
- That your current management team costs you more than \$100,000 for simple maintenance/ suggestions yearly.....

We suggest you get in touch
with the Delta Media.

DON' T FORGET
ITS ALL ABOUT ONLINE
BRANDING!
